Going Beyond in Polar Adventure.

As the Leader in Polar Adventures, we're committed to taking our guests deeper into the Polar Regions than they ever thought possible. Breaking boundaries is part of our DNA—so, too, is innovation.

For the last 30 years we've pushed the limits of our own imagination to provide our guests with the most immersive—and imaginative—adventures in the Polar Regions. We have the most experienced team in the industry. We have the most diverse fleet, which allows guests to personalize their voyage. We offer the most off-ship adventure options—enabling guests to customize their expedition experience. Our fleet of small ships, including our newest vessel, *Ultramarine*, can take you places other larger ships cannot reach.

Our dream is to take you on the journey of a lifetime.

30 Years of Exploration.

August 1991

Quark Expeditions takes the first commercial passengers to the North Pole—something no other expedition company had achieved.

August 1991

Quark Expeditions celebrates the first-ever passenger transit of the Northeast Passage, the historic route across the top of the world.

December 1991

Antarctica AT A GLANCE

While Antarctica's summer extends all the way from November to April, the month you visit determines what you'll see and do once you arrive. It's like three seasons within a season, each time period yielding different weather, wildlife sightings (and behaviors) and conditions on land. Knowing what you want to experience while you're there will help you work out the best time to visit, so you have a customized adventure that ticks all the right boxes.

CHILE

ARGENTINA

RETRACE DARWIN'S FOOTSTEPS

Explore Chile's spectacular network of fjords and channels to see the abundant wildlife species of Patagonia, as well as the glaciers of Tierra del Fuego.

FALKLAND ISLANDS: AN ORNITHOLOGIST'S DREAM

Penguins aren't the only winged species to see in the Falkland Islands. There are 63 breeding bird species and 23 annual migrants, including the inquisitive striated caracara, which are known to steal shiny objects.

FALKLAND ISLANDS
(Islas Malvinas)

CROSSING THE DRAKE PASSAGE

Crossing the infamous 1,300 km (800 mile) wide Drake Passage, between Argentina and Antarctica is a rite of passage for many polar travelers. Rough seas and high winds give it the name "Drake Shake." When it's calm, it's called "Drake Lake."

Drake Passage

NOV 1915-APR 1916

Shackleton and crew drift on ice, then row through rough ocean waters all the way to Elephant Island.

WHALE-WATCHING WEATHER

Enjoy fantastic whale-watching as humpbacks arrive back in Antarctica **MID-DECEMBER** to **MID-FEBRUARY** when temperatures reach up to 40°F/ 5°C, and there are up to 22 hours of sunlight per day.

SUMMER ROMANCE

Penguins begin their courtship rituals (bowing and preening) from **NOVEMBER** to **MID-DECEMBER** on the Antarctic Peninsula. Male gentoo penguins sometimes woo their favorite female by giving her a well-chosen rock!

ANTARCTIC PENINSULA

CROSSING THE ANTARCTIC CIRCLE

Journeying south of the equator to 66°33'45.9—the Antarctic Circle, also called the Polar Circle—is a milestone few travelers ever reach.

PENGUIN CHICKS!

Wildlife-viewing is excellent in the Antarctic from **MID-DECEMBER** to **MID-FEBRUARY**. Especially eye-catching are the penguin chicks which hatch at this time in the sprawling rookeries.

INCREDIBLE SNOWSCAPES

The Antarctic Peninsula is at its most pristine from **NOVEMBER** to **MID-DECEMBER**. As the Antarctic wakes up from winter, pure white snowscapes seem to stretch beyond the horizons.

BIRDS OF SOUTH GEORGIA

Albatross and Cape petrels guide your ship on the approach to South Georgia, which is known as the Galapagos of the Poles.

KING PENGUINS

Salisbury Plain, South Georgia, is home to one of the largest king penguin colonies in the world: about 500,000 of the species gather here.

APR-MAY 1916
Shackleton and five crewmen row back to South Georgia to find help for the sailors on Elephant Island.

BLUE-TINTED ICEBERGS

Antarctic vistas sparkle during the mid-summer period of **MID-DECEMBER** to **MID-FEBRUARY**. Sun and salt water turn the icebergs into works of art in various shades of blue.

CALVING GLACIERS!

Expect Antarctic glacier-calving, the breaking of ice chunks from the edge of a glacier, in the late-summer period from **MID-FEBRUARY** to **LATE MARCH**.

DEC 5, 1914
Endurance departs Grytviken whaling station on South Georgia.

SOUTH GEORGIA

HONORING SHACKLETON

Eminent polar explorer Sir Ernest Shackleton, who died in 1922, is buried in the cemetery at the historic whaling station at Grytviken on South Georgia Island. Follow his historic journey.

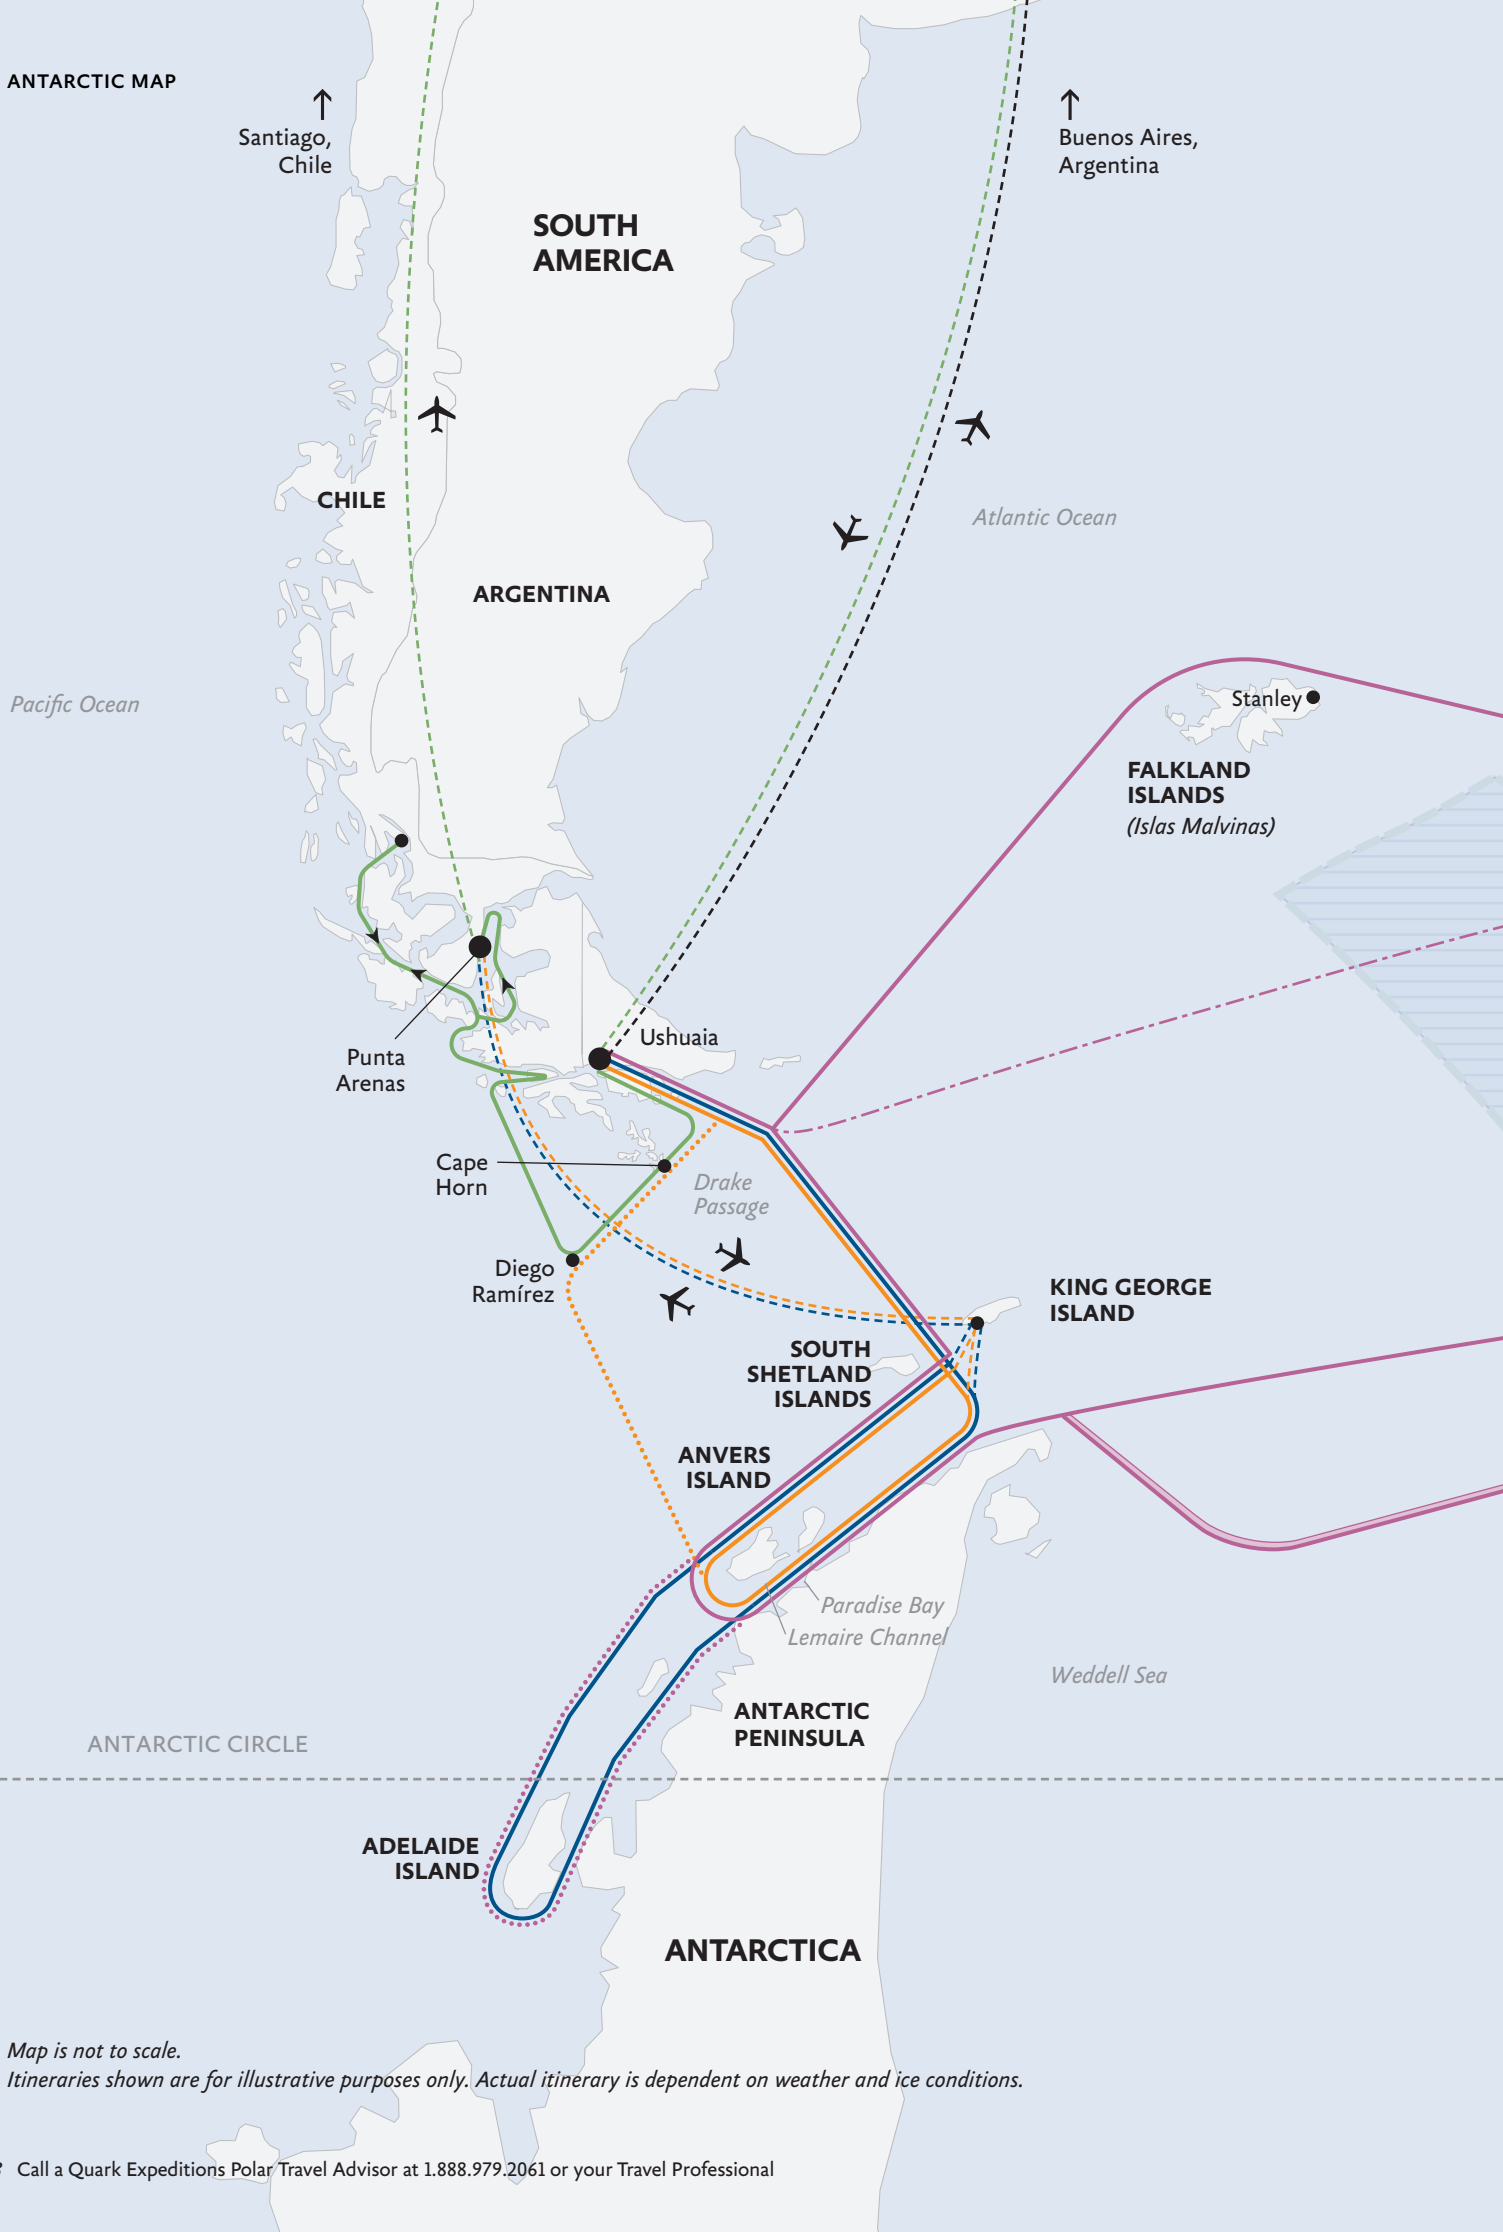

OVERNIGHT CAMPING IN ANTARCTICA

Go to sleep in a bivy sac on the peninsula, wake up to the bray of a penguin, the ethereal call of the sea or the exhalation of a humpback whale. A night spent outdoors is an unforgettable experience. Temperatures are at their warmest (up to 40°F/ 5°C) **MID-NOVEMBER** to **MID-JANUARY**.

NOV 21, 1915
Endurance sinks to the bottom of the Weddell Sea after being trapped in ice for over a year.

Now that you've explored the highlights of the Antarctic region, discover the wide range of itineraries Quark Expeditions offers.

Q the Adventure

Quark Expeditions maintains the largest, most diverse fleet of small polar vessels in the industry, offering guests a wide range of choice based on the polar experience they'd like. The capacity of our ships ranges from 128 to 199 guests, which creates an intimate, relaxed onboard ambience. The small size of our vessels also means we're able to navigate hard-to-reach Antarctic destinations that are inaccessible to larger vessels.

Each ship delivers a unique experience of its own. You get to choose. For instance, *Ultramarine*, with its two helicopters and 20 quick-deploy Zodiacs, offers the most off-ship adventures in the Polar Regions. *World Explorer*, on the other hand, is the only ship in the world with a L'Occitane Spa. *Ocean Diamond*, thanks to its ice-strengthened hull, is ideal for navigating ice-laden waters. And the classic touches of *Ocean Adventurer* make it a favorite with guests and crew alike.

A day onboard **ULTRAMARINE**

*Relax, explore, learn, reflect,
and so much more!*

Penthouse Suite

Ready Room

Balena Restaurant

Wake up in your spa-inspired suite.

Every guest on *Ultramarine* wakes up to a view of the polar landscape. Private bathrooms with heated floors add to your morning comfort. Other possible amenities, depending on your suite: a picture window and/or balcony, a walk-in closet and sitting area, among other extra touches.

Join the early birds in Bistro 487.

Consider a quiet walk on the deck and then enjoy a morning cup of java with other early risers before breakfast.

Enjoy breakfast with a view.

Feel free to remain in Bistro 487 for your breakfast, or choose a table in our sleek, modern dining-room, Balena, which is designed with window views in every direction.

Get ready to explore the polar environment.

Get suited up for an off-ship excursion in *Ultramarine's* specially-designed Ready Rooms, complete with individual lockers to store and dry personal items and expedition gear while you enjoy your Zodiac cruise through the polar waters.

Keep your ears open for morning announcements.

Your Expedition Leader will announce any updates to the daily program and share weather announcements over the PA system to help you plan your day.

Enjoy wildlife views from the ship.

Ultramarine has more open deck space for viewing wildlife than any other ship of its size. Watch for whales, polar bears and other wildlife from the comfort of the ship.

Lunch.

Enjoy a delicious lunch while swapping stories and expedition experiences with fellow guests in our Balena Restaurant or Bistro 487.

Relax in the *Ultramarine* library.

Lose yourself in one of the many books on a wide array of polar subjects in the comfortable library.

Enjoy an unforgettable off-ship Adventure Option.

Choose from *Ultramarine's* robust portfolio of off-ship adventure options, such as sea kayaking or stand-up paddleboarding, or sign up for one of our helicopter-supported adventure options such as flightseeing or alpine heli-trekking.

Relax and rejuvenate back on the ship.

Consider a soothing massage or visit the steam room in Tundra, *Ultramarine's* beautifully designed spa. Or practice yoga in the Studio. Then perhaps experience our sauna with floor-to-ceiling windows that allow you to stay connected to the polar landscape while relaxing indoors.

Attend an expert presentation.

Join fellow guests in *Ultramarine's* Ambassadors Theater to learn from knowledgeable experts who present on various polar subjects. The schedule of these presentations will be determined by the day's activities.

Pre-dinner cocktails.

Enjoy a cocktail with fellow guests while your Expedition Leader enthusiastically shares the daily recap and outlines the plan for the following day.

Dinner is served.

Sit down to a gourmet meal—inspired by cuisines from around the world—in the Balena Restaurant, which features outstanding views from every seat, full access to the 360-degree wraparound deck, and a variety of seating configurations to comfortably accommodate all guests and expedition staff. You also have the option of dining in the more casual and intimate Bistro 487.

Call it a day.

Wrap up your day with a drink in the Panorama Lounge with your new friends, or head out onto the deck to take in the calm, low-light at the end of the day. Then it's back to your spa-inspired cabin to rest up for tomorrow—another life-changing day on *Ultramarine*.

From wilderness to wellness.

Guests traveling on *Ultramarine* have plenty of opportunities to rejuvenate and relax back onboard the ship after a day spent exploring the polar wilderness. Tundra, our state-of-the-art spa on Deck 7, is the onboard space where our guests can fully relax and unwind before their next off-ship adventure.

Tundra Spa

Inspired by the calming and serene polar landscapes, our Tundra spa, in collaboration with VOYA of Ireland, is the core of our wellness offering onboard *Ultramarine*. Guests can enjoy thoughtfully selected wellness treatments and luxurious organic products designed to nourish the body and relax the mind.

Amenities include:

- › Two dedicated treatment rooms with luxurious heated massage beds, as well as shower facilities, hair treatment studio, and a post-treatment relaxation room with ocean views.
- › An array of massages, body scrubs and wraps, including our signature Tundra Hot Stone Massage Journey.
- › All treatments feature VOYA organic skincare products, based on organic hand-harvested seaweed oils.

Sauna

Sauna

The beautifully-designed co-ed sauna on *Ultramarine* features floor-to-ceiling windows, which enable guests to relax back on the ship while still remaining connected to the icy waters and pristine polar landscape outside.

Fitness Center

Steam Room

The steam room is available for you to relax and rejuvenate after a hike or a workout.

Fitness Center and Studio

Our onboard fitness center is fully equipped with state-of-the-art equipment by Technogym, allowing guests to maintain their fitness regimen while traveling. The Studio also features mats and balls for stretching or informal yoga classes.

Nutritious Meals

With two onboard restaurants, our culinary team delivers contemporary meals with lighter options at every service. Please notify us of any dietary preferences at the time of booking.

Studio

Clean Air

In addition to the fresh air in the wide open spaces of the remote Polar Regions, guests also benefit from *Ultramarine's* advanced air filtration system. We want you to breathe easy on board and off-ship.

Food & cuisine.

Food is an integral element of the expedition experience on *Ultramarine*. In addition to enjoying fine dining inspired by cuisines from around the world, meal times are excellent opportunities to share the day's highlights with fellow guests and engage with members of the expedition team and onboard polar experts.

Our internationally-trained chefs work with local experts across our far-flung destinations to source local items that provide an authentic flavor accent to selected food and beverage offerings. *(Please inform our team of dietary restrictions when you book your voyage.)*

Desserts are fabulous! Afternoon tea, with pastries or cookies, is provided about 4 pm every day. Fresh pastries arrive warm from the oven for early birds about 6 am. Guests on *Ultramarine* can choose from two restaurants, as well as two additional bars.

Balena

Balena is our finer dining restaurant on *Ultramarine*, serving contemporary cuisine for breakfast, lunch and dinner with capacity to seat all guests and the entire expedition team at the same time. Expect globally-inspired dishes and regional specialties that feature locally sourced and sustainable ingredients. Savor house wines and beers at

lunch and dinner, or select from our in-restaurant beverage menu, featuring fine regional and global wines, as well as spirits (at an additional cost). Balena is designed so that every seat has a good view and there are four exits directly onto the wraparound deck, ensuring guests have easy access to the sometimes fleeting wonders of nature outside.

Bistro 487

Bistro 487 is the more casual restaurant on Deck 7, serving extended breakfast, lunch and dinner to accommodate those who rise early or late or simply want a change of scenery. The Bistro 487 menu features quicker meals and offers "grab and go" staples between meal times. With access to outdoor seating on the aft deck, Bistro 487 hosts the ever-popular Quark Expeditions barbecues and serves as an ideal location for those who relish the opportunity to enjoy a coffee or cocktail in the great outdoors.

Ambassadors

Ambassadors is the main theater/lounge on *Ultramarine*, where guests enjoy informative talks and presentations from a variety of expedition staff, polar experts and special guests. The Ambassadors bar will be open during presentation hours and for special events.

Panorama Lounge

The Panorama Lounge on Deck 7 is the main bar on *Ultramarine* and features spectacular forward views, a variety of comfortable seating and a convivial bar atmosphere offering an array of specialty cocktails, 24-hour coffee and tea, plus a well-stocked polar library.

Travel Well!

Q the On-Ship Experience

Quark Expeditions' fleet provides guests with many options to engage, relax, learn and stay connected to the polar environment even when they're onboard the ship.

Your life onboard.

Onboard enrichment

Daily presentations by experts in glaciology, penguinology, history, ornithology, marine biology, history and other polar-related subjects deepen your expedition experience.

Daily briefings and recaps

Guests can expect updates each morning on the day's highlights, weather changes and itinerary along with daily summaries in the afternoon/evening.

Opportunities to connect

Connect with fellow guests and expedition team members. Guests frequently interact with expedition team members in the dining room and on outer decks.

Superb dining

Our internationally-trained chefs oversee a menu that changes daily. Our culinary team strives to satisfy dietary preferences and tastes. Breakfast and lunch feature a buffet while dinner is a plated service. Afternoon tea (with pastries or cookies) is provided late afternoon, and fresh pastries are available for early birds before breakfast.

Exercise and wellness

Amenities vary from ship to ship and can include outdoor walking tracks, gyms, saunas, spas with change rooms, showers and lockers. *Ultramarine* offers a sauna with floor-to-ceiling windows and fitness studio, while *World Explorer* has the polar industry's only on-ship L'Occitane spa.

Wildlife viewing

Every ship has easy-access spots to observe wildlife while onboard. Our newest ship, *Ultramarine*, has more outdoor wildlife viewing spaces than other expedition ships its size.

Lounge and bar

Each ship offers a lounge and bar(s) for guests to gather together to enjoy coffee and afternoon snacks, socialize over drinks and for staff presentations.

Adventure options.

Q the Adventure

When it's time to leave the comfort of the ship, Quark Expeditions offers the largest number of off-ship activities in the Polar Regions. Some are included in your expedition package, while others cost extra and need to be booked in advance.

All of our Adventure Options are weather-permitting. Activity offerings vary by itinerary. See individual itineraries for specific details.

Included activities

Zodiac Cruising

These rugged, reinforced rubber skiffs whisk you safely from the ship to the remote shorelines and back, taking you into the shallow waters the ship can't reach. Touring around by Zodiac on the look-out for wildlife is an intimate and relaxing way to see the icy bays and inlets.

Walking/Hiking

Hiking in Antarctica is free-form and supervised by our expert staff, who set out a perimeter at each landing site within which you are free to explore. Walking poles are provided at each landing for your convenience. As there are a limited number of poles available, please bring your own if you require them on every landing, as some landing sites will offer more demanding options than others.

Flightseeing

Enjoying a birds-eye view of the Antarctic—icebergs, glaciers, snow-capped peaks, wildlife, vast ocean expanses—from the seat of a helicopter provides an incredible perspective of the polar landscape. Looking down onto the polar environment is to truly appreciate the breadth of this magnificent wilderness. **On Ultramarine voyages only.*

Polar Plunge

As madcap as it looks, this activity sees willing participants jumping into the bone-chilling ocean waters. It's a polar rite of passage—and the photo ops are priceless. Dare yourself to take the plunge!

Additional activities

All of our Adventure Options are weather-permitting. Activity offerings vary by itinerary. See individual itineraries for specific details.

Sea Kayaking

Kayaking along the rugged coastlines and through the calm bays with an experienced guide is one of the most inspiring ways to explore pristine Antarctica. Guests in the sea kayaking program typically paddle multiple times during their expedition.

**Some experience required.*

Paddling Excursion

A guided, one-time, one-hour paddle lets you enjoy the tranquil polar surroundings from an intimate perspective. Just imagine yourself gliding along on a stable, sit-on-top kayak, totally at one with the water.

**No experience required.*

Stand-Up Paddleboarding

Part surfing, part paddling, this water sport is an intimate way to experience Antarctica from the unique vantage point of the water. Not only is it a great way to breathe in the fresh sea air, it is also a great core workout.

**On Ultramarine and World Explorer voyages only.
No experience required.

Camping

It may sound unbelievable, but camping overnight on the 7th Continent is absolutely wonderful—snug in your warm, water-resistant and breathable bivy under the dim glow of a polar sky with an intimate group of campers.

**No experience required.*

Exclusive Heli-Landing

With a small group of fellow guests and expert guides, you'll board one of *Ultramarine's* two twin-engine helicopters to soar off to an exclusive polar site where no ships can navigate. You'll have time to relax and quietly reflect on the beauty of your polar surroundings, after which you'll be picked up by the helicopters in the same location and returned to the ship.

**On Ultramarine voyages only.*

Alpine Heli-Trekking

You'll be part of an intimate group of adventurers to board one of *Ultramarine's* two twin-engine helicopters for a trekking excursion in an area only safely accessed by air. On land, during an invigorating walk, hike or snowshoe trek, you'll be able to marvel at the overwhelming beauty of the Antarctic.

**On Ultramarine voyages only.*

Q the Ensemble

Talk to anyone who's traveled on a Quark Expeditions voyage and the first thing they'll talk about is the team—the ensemble cast of Polar Travel Advisors, Expedition Leaders, Adventure Guides and other on-ship staff who do everything possible to curate unforgettable guest experiences in the Polar Regions. Passion, determination, expertise, commitment to safety, and curiosity have defined the Quark Expeditions team since 1991. As the most experienced team in the expedition industry, we draw on our 30 years of polar exploration to ensure you have the polar trip of a lifetime.

Polar Travel Advisors.

Our dedicated team of polar specialists are available to help you from the first email exchange or initial phone call to the friendly follow-up after you've returned home after your voyage. Trust our team of Polar Travel Advisors to have the information you need to plan your life-changing Antarctic journey.

Polar Experience: All of our Polar Travel Advisors have first-hand experience in the Polar Regions. Some have made multiple polar voyages throughout their career.

In-depth knowledge: Our Polar Travel Advisors undergo rigorous training. All of them are thoroughly versed in the guidelines and regulations of the International Association of Antarctica Tour Operators (IAATO) and the Association of Arctic Expedition Cruise Operators (AECO).

Multilingual: Collectively, our Polar Travel Advisors are fluent in English, French, Spanish, Mandarin and Italian.

Quark Expeditions staff on the lookout for wildlife.

Your Expedition Leaders.

Our Expedition Leaders are the most experienced in the industry. They possess an incredible range of skills: strong communications; the ability to navigate unexpected itinerary changes; a commitment to safety; and an excellence in coordinating, supporting and leading a diverse Expedition Team to meet and exceed your expectations. All of our Expedition Leaders undergo rigorous training at our very own polar training institute, Quark Academy. In addition, our teams are fully versed in the regulations and guidelines set by the International Association of Antarctica Tour Operators (IAATO), which serves to protect the Antarctic region.

Abbey Weisbrot

Home base: Haida Gwaii, British Columbia

Years of polar experience: 7

Polar expeditions to date: 70

Areas of expertise: Bachelor of Tourism Management with a major in Adventure Studies. Certified Level 3 Lead Sea Kayak Guide with Sea Kayak Guides Alliance of British Columbia.

Advice to polar travelers: "Consciously slow down and soak up the incredible beauty around you, both big and small. Be present, take opportunities as they arise, and spend as much time out on the outer decks as possible."

Alison Gordon

Home base: Canberra, Australia

Years of polar experience: 7

Polar expeditions to date: 100

Areas of expertise: Alison, who speaks Mandarin, has studied geopolitics and founded a company that tackles the issues of food waste and sustainable protein. She's an avid skier, scuba diver, cyclist, runner and conservationist.

Advice to polar travelers: "Be open to what it feels like to fall in love (again) with our planet and the beauty it contains."

Andrea Machacek

Home base: Salzburg and Vienna, Austria

Years of polar experience: 11

Polar expeditions to date: 85

Areas of expertise: Quark Expeditions Destination Consultant for North Atlantic and Greenland. Andrea is multilingual: German, English, French, Spanish and "Survival Russian"

Advice to polar travelers: "A true engagement with nature requires you to bring all of yourself, body and soul, your attention and focus—as opposed to living your life through your viewfinder or camera lens. Live in the moment, let your senses and horizon expand, and you will feel the magic happen."

Christian Geissler

Home base: Cumberland, BC

Years of polar experience: 15

Polar expeditions to date: 130

Areas of expertise: Christian has developed an expertise in marine mammals and orcas, most recently supporting scientific observations in the Canadian Arctic. Christian is also a skilled artist, creating paintings depicting the wildlife and seascapes of the West Coast of Canada, the Arctic and Antarctica.

Advice to polar travelers: "Being an explorer can be subjective and a personal experience and you're never too old to start."

David Burton

Home base: Shetland Islands, UK

Years of polar experience: 10

Polar expeditions to date: 90

Areas of expertise: History and glaciology

Advice to polar travelers: "Head to the outer decks after dinner to take an evening constitutional. There's no better place than the Polar Regions to take some time and reflect on the serene beauty you've witnessed that day, as well as contemplate the life-changing moments you're experiencing. You never know what you might catch sight of—the majesty of the northern lights or a sighting of some wildlife!"

David (Woody) Wood

Home base: Melbourne, AU

Years of polar experience: 20

Polar expeditions to date: 300

Areas of expertise: Woody has developed in-depth knowledge of numerous aspects of polar wilderness throughout two decades of polar expedition.

Advice to polar travelers: "Polar voyages touch people in different ways. The polar environment has a power which sets people thinking about their place in our world. Get prepared with gear and have the time of your life! Travel with eyes wide open, with no fixed ideas and be open to the beauty, wonder, tranquility and fury of the polar environment."

Laurie Di Vincenzo

Home base: Toronto, ON

Years of polar experience: 8

Polar expeditions to date: 100

Areas of expertise: Marine logistics and operations management are Laurie's specialties. Laurie has also been appointed as the first-ever Expedition Leader of *Ultramarine*.

Advice to polar travelers: "Find a quiet moment, sit still, put down your camera, and fully immerse yourself in your polar surroundings. Don't let your mind drift to anything else other than that moment, and just give yourself space and time to absorb the landscape (and perhaps the wildlife!) around you."

Shane Evoy

Home base: Pointe au Baril, Ontario

Years of polar experience: 26

Polar expeditions to date: 250

What guests are apt to learn on a polar voyage:

"I hope guests will learn a lot about the areas we go into so they can protect what they love. There's a quote from environmentalist Baba Dioum that I live by when I'm on an expedition: 'In the end, we will conserve only what we love; we will love only what we understand; and we will understand only what we are taught.'"

Advice to polar travelers: "Sit, look, listen, and feel what is around you and take it all in."

Solan Jensen

Home base: Juneau, AK

Years of polar experience: 15

Polar expeditions to date: 134

Areas of expertise: Solan's roles have included wilderness ranger, expedition leader, kayak guide, boat builder and marine mammal emergency responder.

Advice to polar travelers: "Bring a receptivity to continuously absorb the experience, every gust of wind, wild shoreline and mountain, every creature that calls the polar regions home—and the ice that is home. Bring binoculars everywhere. Go on every off-ship excursion and spend as much time as you can on the outer decks of the ship. Come with curiosity and a heightened awareness because the polar regions are as huge and magnificent as they are subtle and intricate."

Experience Matters!

We have the most experienced team in the polar regions: Shane Evoy has 19 years of experience, and David (Woody) Woods has 17 years hands-on experience in the polar regions. Christian Geissler has been on over 100 expeditions, while Solan Jensen has led 24 Arctic expeditions and 108 Antarctic expeditions.

Why travel with us?

We've been exploring the Polar Regions for three decades, which means we've been taking guests on life-changing journeys to the Arctic and Antarctic longer than anyone else. As the Leader in Polar Adventures, we're committed to taking travelers beyond the ordinary, outside the predictable and expected. We were the first expedition company to take commercial guests to the North Pole—back in 1991. We led the first-ever passenger transit of the Northeast Passage. We were the first to offer hot-air ballooning at the North Pole. We've always been driven to discover what's out there—and we're committed to taking you places no one else can.

Here are **11** more reasons why Quark Expeditions should be your first choice for your polar expedition:

WE ONLY DO POLAR.

Exclusively! We're not a cruise company that dabbles in the Arctic and Antarctic. Polar is all we've been doing for the last three decades. You can have absolute trust in the expedition team that knows the Arctic and Antarctic inside out.

WE HAVE THE MOST EXPERIENCED TEAM IN THE POLAR REGIONS.

After 30 years of polar adventure, our seasoned expedition team and polar specialists have endless passion and unparalleled knowledge to share with guests. Our high ratio of expedition staff-to-guests means a more personal experience.

WE BELIEVE IN BEING ENGAGED TRAVELERS—NOT PASSIVE OBSERVERS.

Quark Expeditions invites guests to experience the Polar Regions by land, sea, air and ice—not merely just see it through a window.

WE OFFER MORE OFF-SHIP ADVENTURE OPTIONS THAN ANYONE ELSE.

We offer more ways to experience the polar environments than any other expedition company: flightseeing, sea kayaking, hiking, alpine heli-trekking, stand-up paddleboarding and more. Our robust portfolio of adventure options means guests can truly personalize their polar experience.

WE IMMERSE YOU IN NATURE.

Our expert guides, innovative itineraries and quick-deploy Zodiacs enable spontaneous, wildlife encounters never before imagined!

WE DELIVER THE MOST INNOVATIVE ITINERARIES.

Quark Expeditions constantly pushes the boundaries of discovery. This year we offer our two Solar Eclipse voyages in Antarctica, as well as first-time explorations of Patagonia.

WE'RE AN INDUSTRY LEADER IN HEALTH & SAFETY.

Quark Expeditions has an externally-accredited safety program (British Standard BS8848). In addition, every member of our expedition team undergoes in-depth safety training at Quark Academy, our proprietary polar training institute.

WE ENGAGE AND EDUCATE OUR GUESTS THROUGH ONBOARD PRESENTATIONS.

Our onboard experts (in glaciology, history, biology, history and other subjects) share their in-depth knowledge with guests throughout the entire voyage.

WE TAKE GUESTS DEEPER INTO THE POLAR REGIONS THAN ANYONE ELSE.

Our two twin-engine helicopters enable guests to experience the most remote destinations in the Polar Regions.

WE USE THE RIGHT SHIPS FOR THE JOB.

Quark Expeditions maintains the largest, most diverse polar fleet in the industry, offering guests a wide range of choice. Our polar ships carry fewer than 200 guests and are small enough to allow guests access to hard-to-reach areas. Our ship sizes allow for customized and more personalized experiences.

WE HAVE THE MOST COMPREHENSIVE SUSTAINABILITY STRATEGY IN THE POLAR REGIONS.

Our Polar Promise is the most holistic sustainability strategy of its kind. Since 2010, we've decreased emissions from our fleet by 28%. In 2017, we eliminated single use plastics. By 2025, we aim to reduce carbon emissions by 10%, ensuring we can protect the areas we visit for generations to come.

Base Layer

Wicking is king. Tops and pants specifically designed to wick moisture away from the body and keep your core body temperature regulated are ideal. Choose synthetic fibers or wool/wool blends.

WARM HAT

Outer Layer

Top quality waterproof pants and gloves will protect you from the elements.

You'll receive Quark Expeditions' signature yellow parka when you embark on your voyage.

Golden Rules

RULE 1 Layers, layers, layers

Dressing in layers means you'll be ready for any type of weather you'll encounter.

RULE 2 Wear breathables (no cotton)

Wearing breathable materials ensures you stay warm and dry on polar landings.

RULE 3 Waterproof, not water repellent

Waterproof pants are essential for trips to the polar regions as you'll likely encounter splashes of water when going ashore.

Q Sustainability

This infographic reflects **QUARK EXPEDITIONS'** sustainability successes and goals—celebrating our past while...

PLANNING FOR THE FUTURE!

In April 2019, we reinforced our commitment to the polar regions with the unveiling of **POLAR PROMISE**—the most comprehensive and holistic sustainability strategy in place in the polar regions. In Polar Promise, Quark Expeditions identifies measurable goals to be reached by 2025.

REDUCE SINGLE-USE PLASTICS

Quark Expeditions continues to drastically reduce single-use plastics on board our ships. In 2019, we eliminated:

320,000

Single use bottles.
Our guests receive their own reusable water bottles!

14,000

Individual yogurt containers.

7,600

Parka bags.
Now in bundles *versus* individual plastic bags.

FUN FACTS

By working with our hotel provider, we've **replaced individually wrapped items** like butter, sugar, jam, honey, and yogurt with bulk versions.

We've **installed water fountains** on our vessels so that guests can refill their own reusable Quark Expeditions water bottle as needed.

Cabins have been **outfitted with soap and shampoo dispensers** to reduce waste, and we provide straws, paper napkins, and receipts only on request.

OFFSHIP INITIATIVES

\$500,000

Our annual goal to support Polar Research and Conservation.

Quark Expeditions provides free berths to conservation and scientific organizations, giving scientists access to remote regions to further their research. In addition, a portion of the proceeds from our onboard auctions are directed to these organizations.

\$169,924

Auction proceeds supporting South Georgia Heritage Trust and Friends of South Georgia.

The funds, raised since 2014, support the Habitat Restoration project, whose goal was to restore the sub-Antarctic island to its original status as one of the world's most important seabird sites. Funds were used for baiting during the eradication phase and to support rodent-detecting dogs for the current monitoring and maintenance phase.

TRAINING THROUGH NALUNAIQSIJIIT:

THE INUIT CRUISE TRAINING INITIATIVE

Through Nalunaiqsiijiit—The Inuit Cruise Training Initiative (ICTI), Quark Expeditions hired two interns on *Ocean Adventurer* voyages to Nunavut during the Arctic 2019 season, both of which were hired as staff during the 2019/20 Antarctic season. The goal of this Government of Nunavut program is to equip Nunavummiut with the qualifications and certifications needed to pursue opportunities in the expedition cruise industry.

EVERY PESO COUNTS

Quark Expeditions participated in SeaGreen recycling initiative during our 2018/19 Antarctic season. Proceeds from the sale of our recyclables raised **120,000 PESOS** to assist Argentinians living with a disability.

GREEN TECHNOLOGIES FOR OUR VESSELS

ULTRAMARINE

like the recently-launched *World Explorer*, will be equipped with a Micro Auto Gasification System that thermally breaks down waste, reducing its volume by

UP TO 95%

**40 DAYS
ZERO
WASTE**

These advanced waste systems mean the technologically-advanced vessel can operate for **40 DAYS** and discharge no solid waste!

Ultramarine has sufficient effluent storage to operate at full capacity with **340 PEOPLE** (guests and crew) for **5 DAYS**, eliminating the need for any discharge in particularly sensitive areas.

Ultramarine's LED lighting can potentially use **50% LESS** energy than standard fluorescent lighting.

The future looks bright!

Fuel-efficient *Ultramarine*
We expect the average daily fuel consumption of *Ultramarine* to be approximately half the consumption of older chartered vessels of similar size.

WINNING THE CARBON EMISSIONS CHALLENGE!

28%

Reduction in Carbon Emissions
Quark Expeditions' historical analysis confirms that we have decreased emissions from vessels by 28% from 2010 levels.

OUR GOAL BY 2025

Quark Expeditions will reduce carbon emissions by:

10% /  **PER PASSENGER PER DAY**
from the 5-year rolling average

Our Polar Promise

PRINCIPLES

Embedding responsible practices throughout our business, whether it's in polar wilderness or in the places we work each day.

Goal: By 2025, our goal is to work exclusively with suppliers, vendors and external partners who share our commitment to preserving the polar regions.

PLANET

Reducing our footprint and building resilience through best practices and advanced sustainability technologies.

Goal: By 2025, Quark Expeditions will reduce carbon emissions per passenger by 10%, and Quark Expeditions-owned fleet will have a plan for all waste brought on board.

PARTNERSHIPS

Making a positive impact on the people, environment, and communities we visit through outreach, collaboration, and innovation.

Goal: By 2025, Quark Expeditions will continue to lead change through community engagement and by supporting scientific, conservation and sustainable development in polar communities.

POSITIVE IMPACT

Inspiring and empowering our guests to make changes that create positive impacts, wherever they live.

Goal: By 2025, the positive benefit of bringing people to the polar regions will far outweigh any impact of taking people there.

Our sustainability strategy is an ongoing journey. Join us on our voyage to preserve the polar regions for generations to come!
